GOLDSMITH

Investor Pitch Deck

Seed round · December 14th, 2024

CONFIDENTIAL

Goldsmith Seed Round Thesis

1. The $350B+ global jewelry industry is ready for disruption given historical inefficiencies and inflated prices.

2. Artificial intelligence will remove the up-front costs of jewelry consulting and design, making custom jewelry affordable and consumer-centric.

3. Software-enabled models will be preferred over traditional retail, especially with young demographics driving market growth.

4. Open-source software will accelerate the growth and adoption of AI-enabled technologies.

5. Software platforms with exceptional customer experience will drive trust and long-term loyalty.

Custom Jewelry is Unaffordable

Jewelers hold exclusive connections to manufacturers, designers and global sourcing experts.

This drives up prices by 200% to 500% for consumers.

Custom jewelry requires significant investment in consulting and design, with a lack of consumer-centric options.

This limits custom jewelry to consumers of high wealth, further driving up prices.

Consumers lack domain expertise in an industry driven by sales objectives, high investment and prices.

This leads to a lack of trust between jewelers and consumers, limiting growth.

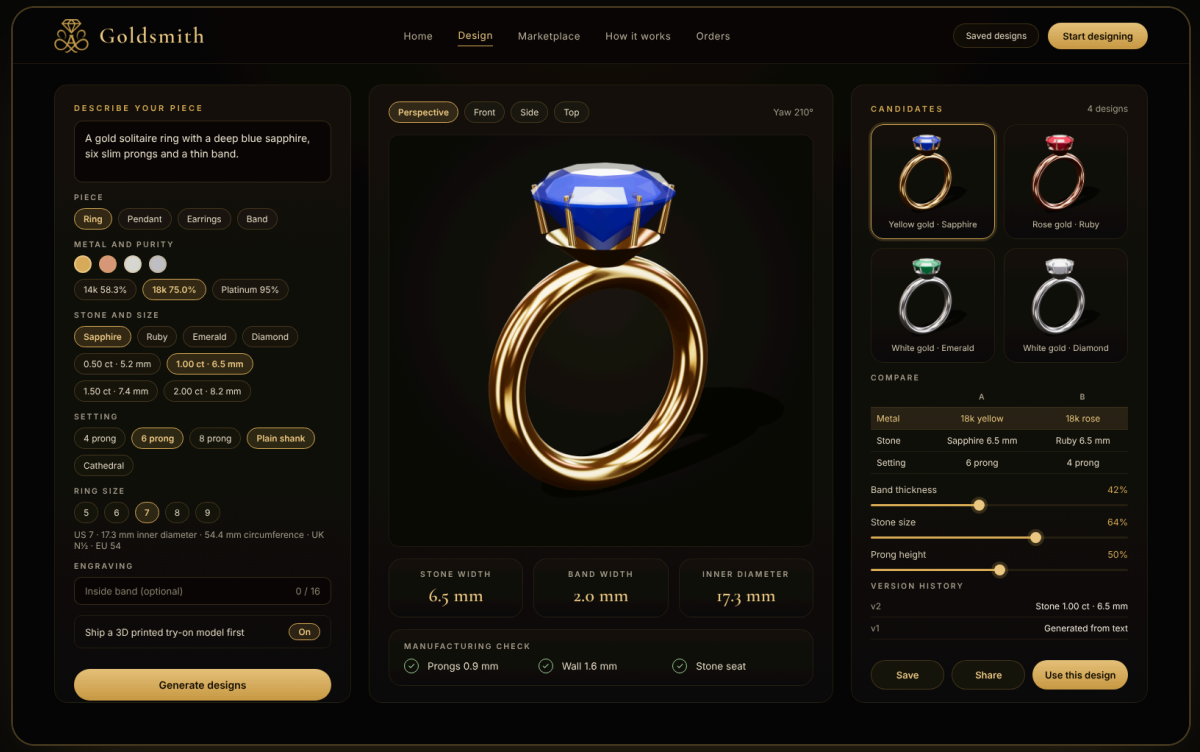

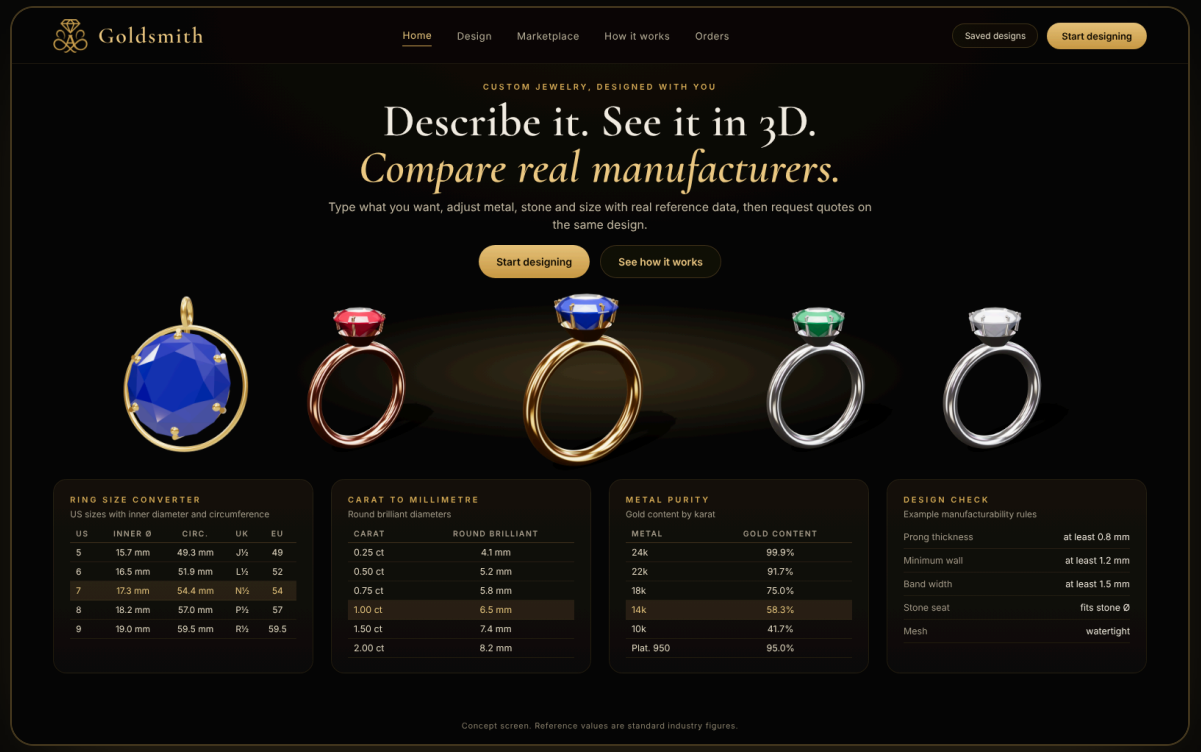

200% to 500%

VALUE PROPOSITION

AI-driven platform simplifies custom jewelry design, connects buyers, jewelers, and manufacturers, reducing complexity and cost.

REVENUE STREAMS

- SaaS licensing ($8K+/year) and on-premise ($5K+/year)
- Platform fees (subscriptions and transaction %), sponsored listings
- Support services for B2B clients

SALES STRATEGY

- D2C: website, social media, SEO
- B2B: SaaS outreach via LinkedIn, expos, account managers
- Content marketing and CRM tools (HubSpot)

TARGET CUSTOMERS

Consumers, jewelers, manufacturers, design students and enthusiasts.

COMPETITIVE EDGE

AI-powered text-prompt CAD, integrated supply chain ecosystem, scalable SaaS solutions.

GROWTH POTENTIAL

AR/VR visualization, blockchain tracking, global partnerships, education initiatives.

KEY METRICS

ARR, user acquisition, transaction volume, retention, and satisfaction.

Multi-Channel Strategy

Direct-to-Consumer

- Website
- Social media
- SEO
- Content marketing

Business-to-Business

- SaaS outreach
- LinkedIn
- Expos
- Account managers

Current Validation

PLATFORM DEVELOPMENT

- Enhance AI-powered CAD tools for even more intuitive text-to-design capabilities.
- Launch a fully functional marketplace to seamlessly connect buyers, jewelers, and manufacturers.

USER ACQUISITION

- Achieve 10,000+ platform users through targeted marketing campaigns and partnerships.
- Build a strong community of designers, jewelers, and enthusiasts via social media engagement.

B2B PARTNERSHIPS

- Establish partnerships with 50+ manufacturers to expand production capabilities globally.
- Develop long-term relationships with jewelers to drive platform adoption and loyalty.

MARKET LEADERSHIP

- Leverage industry trends in AI and personalization to position Goldsmith as the go-to platform for custom jewelry.
- Stay ahead of competitors by integrating advanced features like AR/VR visualization and blockchain tracking.

FUNDING & EXPANSION

- Raise seed funding to scale operations and marketing efforts.
- Expand into key international markets and adapt the platform to meet local jewelry design needs.

Projections & Milestones

YEAR 1

Platform Launch

$500K

- Launch beta platform with AI-powered CAD and initial marketplace functionality.
- Onboard 1,000+ users and 20 manufacturers.
- Achieve $500K in revenue through SaaS subscriptions and platform fees.

YEAR 2

Growth & Optimization

$2M

- Expand user base to 5,000+ and secure partnerships with 50 manufacturers.
- Introduce AR/VR design features and enhanced customization tools.
- Target $2M in revenue driven by increased user adoption and B2B contracts.

YEAR 3

Market Leadership

$5M+

- Scale to 10,000+ users and global manufacturing partnerships.
- Integrate blockchain for material tracking and provenance verification.
- Generate $5M+ in revenue while maintaining 90% customer retention.

LONG-TERM VISION

5+ years

$20M+

- Establish Goldsmith as the industry leader in AI-driven custom jewelry design.
- Expand into new markets, including educational tools and licensing partnerships.
- Reach $20M+ in annual revenue and explore exit opportunities or IPO potential.
